Hi Tracy – great! Please feel free to send your response and I'll hold mine.

Thanks for the quick feedback.

Best,  
Catherine

Thanks. Those responses look correct. In the interim, I had drafted the following so I will let you decide whether to send this or go with your message. I'm not really familiar with what she is referring to with respect to looking online concerning the 8(e).

Internal deliberative

Rose –

The 8(e) is for the 90-day study in mice only (the 90-day study in rats has been located already).

David Tobias and Chris Brinkerhoff went through CIS looking at the test data submitted and the 90-day mouse study was not located. Kelly Mayo forwarded me the 8(e) letter so I have cc'd here on this email in case she has more insight regarding your question about looking online concerning the 8(e) (I didn't check online information for 8(e)'s personally).

Tracy

**Subject:** Tracy et al. - please check my answers below [GenX] looking for study report related to 8(e) submission

... before I send to Rose. Are my **responses** accurate?

Thanks!  
Catherine

Internal deliberative

Hi Catherine, Just to confirm, has someone gone through CIS and opened the test data submitted around that time? **YES**  
Is the 8(e) for the rat or mice 90-day study or both? **Mice** I'll inquire internally about whether the 8(e) was only a notice or included any data. **Thank you!** I presume that someone in RAD has looked at what is online concerning the 8(e)? **Yes**  
Rose

PS fyi--CIS has both protocols and actual test data labeled TD for test data. **This is helpful to know, thanks!**

**Subject:** [GenX] looking for study report related to 8(e) submission

*Internal deliberative*

Hello Rose,

We need some help locating a study referenced in an 8(e) submission. Via Tracy -

*Results of a 90-day oral toxicity study in mice were discussed in a **December 29, 2009 letter to the 8(e)Coordinator**. They reference **8EHQ-06-16436/8EHQ-06-16478**.*

Can you help us

- 1) determine if a full study report was ever submitted to the Agency,
- 2) if so, locate the study report (maybe microfiche in docket?), and
- 3) otherwise, perhaps look into obtaining the study report from the submitter?

We have exhausted our search options and appreciate any help you can provide. Let me know if you need any more information to support this request.

Best,  
Catherine
